

Jonas Sprinklers and Fertilizer

6000 3rd Ave South Great Falls, MT. 59405

406-216-2218

Pet safety Guidelines: Please read the guidelines regarding fertilizer applications and dry times.

- Please keep pets inside during the application.
- Please pick up any toys you do not want sprayed.
- If your pet does digest some fertilizer, try to get them to drink some water. It may upset their tummy.

Granular fertilizer:

- Please wipe your pets paws to remove any granular, so it is not tracked into your house.
- You can water your lawn to help absorb the granular.

Liquid fertilizer:

- Please keep your pets off the lawn until it is completely dry.
- Dry times vary based on outside temperatures.
Warmer temperatures mean faster drying, while cooler weather may increase dry times.

Please call the office if you have further questions.

Thank you.
